

# FAVORITE PLACES FOR OPEN LEARNING WORLDS.

jay  
cocoon

### BENEFITS

- ▶ high back wall serves as sound insulation and room divider without impairing the room overview
- ▶ elements can be used individually and combined with each other
- ▶ flexible for a wide range of applications
- ▶ table with storage space, optionally also with castors
- ▶ table top can be used as a base plate
- ▶ sturdy wooden construction with durable upholstery
- ▶ especially for elementary school hard-wearing and easy-care cover fabrics in highest quality, pleasant feel and extensive color selection
- ▶ PROTEX with dirt-repellent surface, antibacterial and antifungal
- ▶ suitable for the corridor area: on request version with B1 materials and floor fixing
- ▶ floor mat with high quality anti-slip underside

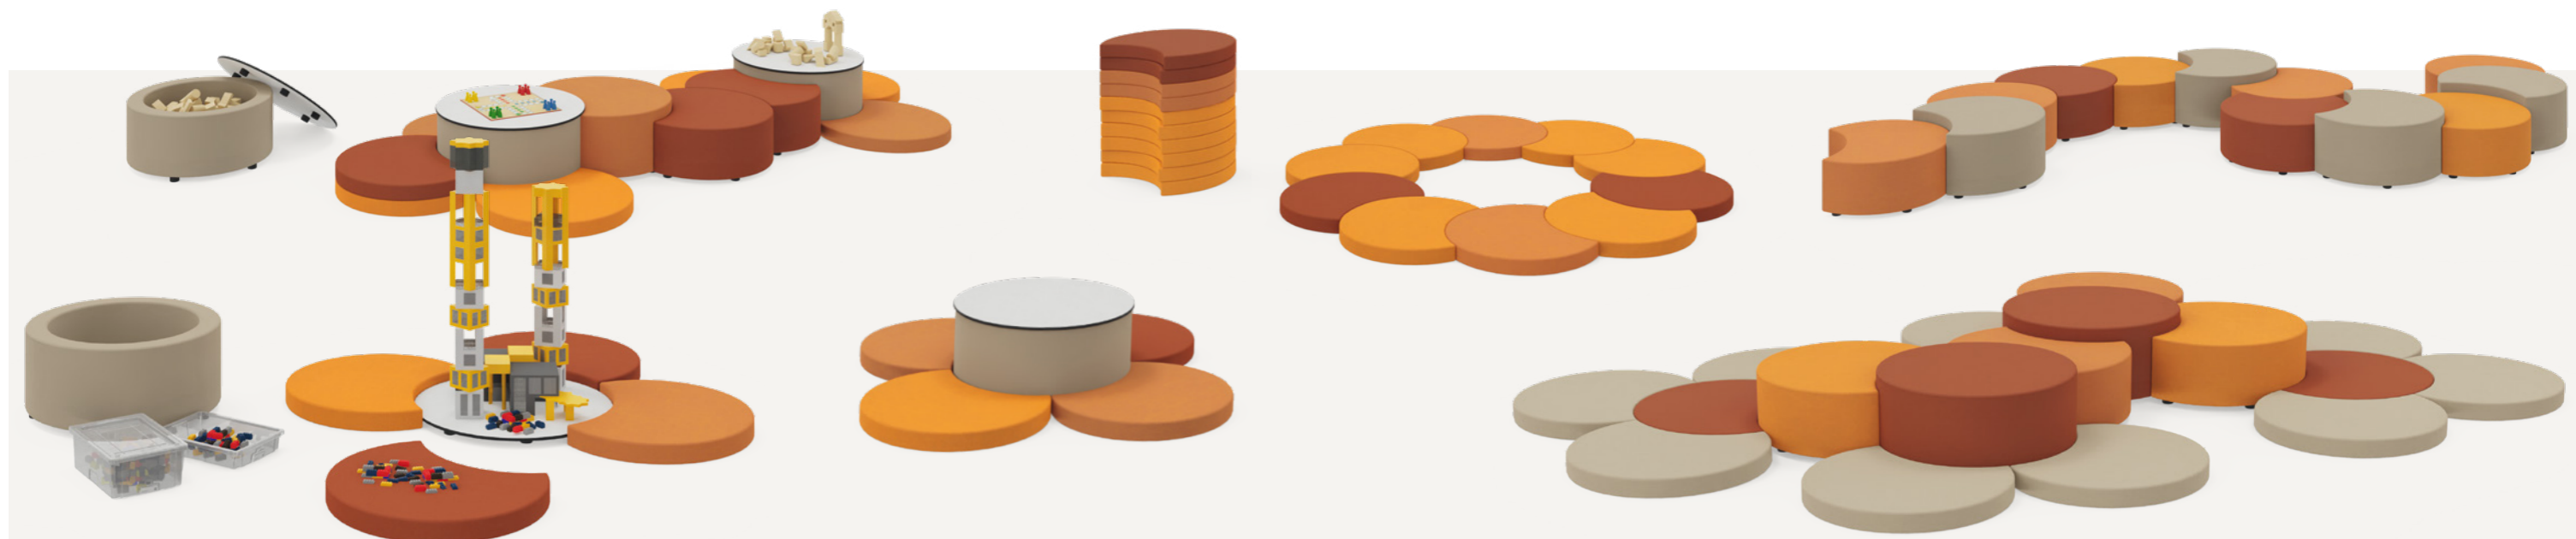

## FOR MORE FUN AND VARIETY WHILE LEARNING.

The learning world is changing - diversity, creativity and play are shaping everyday school life and need spaces that adapt to this movement. JOYN and COCOON tie in with this and make it possible to effortlessly adapt the space to the learning setting and allow for new learning experiences.

JOYN promotes the joy of new connections (join) and thus creative play in learning - the many possible combinations transform the elements into individually designed learning landscapes. This allows children to live out their urge to move as well as their learning needs and discover new things with joy. COCOON provides a balance in this lively variety of combinations: like a cocoon, it forms a protective island of calm where children can play, paint, read or regenerate, either individually or in small groups. Because creativity can only unfold in a state of relaxation.

**With JOYN and COCOON, playfully create changeable seating landscapes:** Islands of calm for creative breaks, treasure chests for surprising storage space, water lilies for refreshing learning impulses, seating circles for shared discussions, snakes for casual hallway conversations or flowers for joy in learning. And in the middle of it all, children who blossom while learning.
