

MUNICIPAL COMPREHENSIVE SCHOOL LANGENFELD

1/2 This self-learning area, around the circular unit of cupboards and upholstered seats, offers various study areas - for single students or groups. Diverse lounge-furniture creates protected corners for a relaxed exchange in between studies.

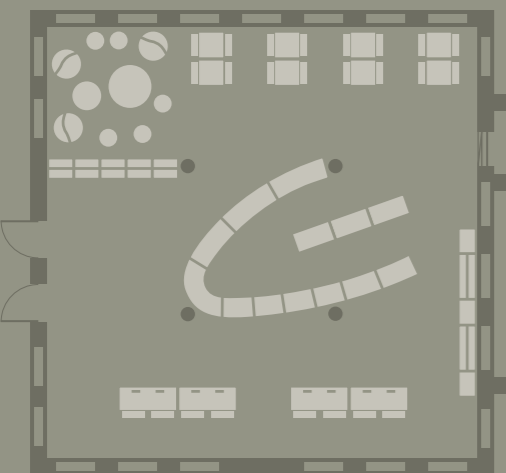

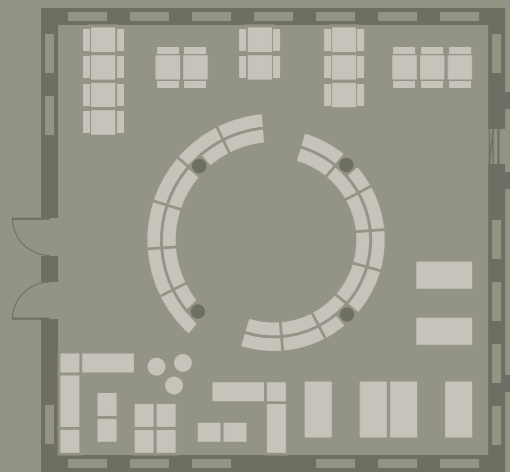

3/4 The library, in the second slightly more open self-learning area, offers table groups in various sizes as well as computer work places and a lounge area.

5 The calm classrooms, in color-glazed decorative concrete, are furnished with modest gray furniture.

6 The combination of two classrooms creates their school academy. When needed, two mobile partitions can convert this large room into two separate classrooms.

7/8 The cafeteria is loosely arranged into areas for large and small groups. Above and beyond the normal mess hall setup, the long wall-table as well as a comfortable lounge area create an inviting café-like effect.

9 The spacious, open foyer with a terrazzo floor can also serve as an auditorium. This area, which during the day is filled with streams of children, can be converted into an event hall that seats up to 250 people. Stackable chairs that can be connected to form tidy rows make for quick and easy setup alterations.

# BUILDING

---

Municipal Comprehensive School Langenfeld, 2016

---

## Project

Construction of a 3-story school building with room for up to 500 students, as well as administration- and service-areas.

---

## Concept

The modern construction of the "Town-Center Learning Campus" brings classical and new forms of learning under one roof. Depending on circumstances and furnishings, 17 school classes are able to learn, either in classrooms, specialty areas, or in one of the two self-study centers. The open foyer and the cafeteria provide lively meeting places, for all to enjoy throughout the day.

---

## Architects

Architecture/overall planning: Stadt Langenfeld

Specialist planning for furnishing:

gpe-projekt Gesellschaft für Planung & Entwicklung Meschede

---

# FEATURES

---

Interior Design

---

## Concept

The furnishings match the unpretentious, friendly concept of the building. A lively mix of materials, colors, and shapes creates a high-quality educational environment that is functional, with a homey atmosphere. The cafeteria - the heart of the school, offers modern coziness, while providing an inviting place to linger for a while.

---

## Options

The airy foyer, when filled with chairs, serves as an auditorium for up to 250 people. Single tables in each classroom allow for flexible learning: whether individual work, lecture-style teaching or in groups. The large self-learning centers can be utilized by individuals, or by entire groups - for both digital and conventional work.

---

## Sustainability

Quality made in Germany. Responsible management of resources is essential for products that will shape generations to come. A2S have already netted a host of awards and certificates for their short manufacturing chains, refusal to use solvents and tropical woods, and standards that are well within legal maximums.
